

Gaming Girl

(Enders, 2025)

Verse 1

Hidden in the shadows: a little wallflower,
A silent girl with no power.
Dreams of friendship fade away.
She's unseen and feels betrayed.

Pre-Chorus

But in the world behind the screen,
She's someone else, she's a queen,
A gifted gamer who survives.
In the virtual world, she feels alive.

Chorus

A gaming girl with heart and soul!
In her realm, she's in control.
With cleverness and badass skills,
(She) sneaks stealthily, light as a quill.
Silent paths are not forbidden.
Secrets are no longer hidden.
She's a spider – climbs steep walls,
Solves riddles in abandoned halls.

Verse 2

In the virtual world she earned so much fame
A radiant heroine who plays the game.
Although nobody knows her real name
They are all in awe, want to carry her flame.

Bridge

But in her real life she finds it hard,
To assert herself among those stupid
blowhards.
Then somebody finds her behind the screen.
And all of the sudden, she's no longer unseen.

Prechorus

Now they see her in a different light.
Her spirit flies high – high as a kite.
She can be proud, 'cause she is famous
A shining idol for female gamers

Chorus

A gaming girl with heart and soul!
In her realm, she's in control.
With cleverness and badass skills,
She sneaks stealthily, light as a quill.
Silent paths are not forbidden.
Secrets are no longer hidden.
She's a spider – climbs steep walls,
Solves riddles in abandoned halls.

Finale:

From violet to red aglow
hovers a colorful rainbow.
She is the only one who ever
found the precious treasure
at its foot.
